

# Requirements

---

## Minimal Requirements

---

- Develop a web version of the game 'Pexeso' playable on a single computer.
- Feature an 8x8 playing field.
- Allow players to select a theme for the game (e.g., hockey, cars, cities).

## Medium Difficulty

---

- Enable players to create online games for two people.

## High Difficulty

---

- Allow players to upload their own images for the cards.
- Provide functionality for players to manage the cards they have uploaded.

## Optional Challenges

---

- Permit more than two players to participate in a single game simultaneously.
- Offer customizable playfield sizes.
- Implement high score tracking, including:
  - Total number of games played.
  - Total wins.
  - Shortest time to victory.
  - Fewest number of turns to victory.
